

Installation Manual

Uni-VicShape 3D Duo

MATERIAL NEEDED:

Included

Not Included

Level

Circular saw

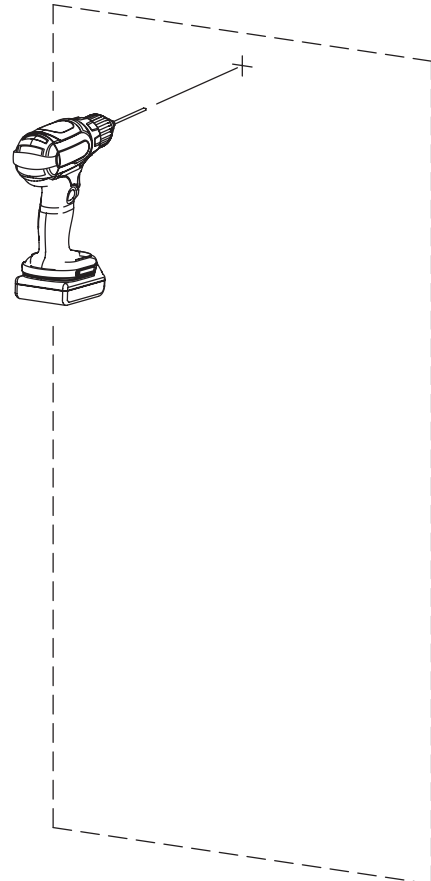

Wall Plugs and Screws

Measuring Tape

1

Before installing the panels, measure the wall where you are going to install them. Depending on the type of wall, you can fix a direct screw or use a wall plug and screw (not provided), to support the VicShape 3D.

2

Suspend the panel

Suggested layout

If you choose to install the panel horizontally, unscrew the suspension clip and screw it into the middle of the long side of the frame (580mm from the edge).

The silicone drops should be applied in the lower corners of the panel.
